KSS Storage and Application :

Storage and Application :

KSS Cable ties are made by high quality of Nylon 66 resin. The property of this material is in moisture absorbed and released. Cable ties require to be contained the moisture and packed in the sealed packaging to have optimal performance. Hence, the conditions for keeping the packaging of cable ties are very important.

APPLICATION:

 °C	The ideal storage temperature is around 23°C with the humidity over 50 %
	Do not open the bag before use. Please try to finish the whole package of cable ties shortly once it's opened. Seal the bag for remaining pieces to keep quality.
	Do not expose directly under sunlight except UV resistant cable ties.
	Avoid storing cable ties next to warm objects like heaters.

	European Conformity
	UK Conformity Assessed
